Hello! I am Kristoffer Van Steemberghe, a passionate 21-years-old Applied Mathematics and Computer Science student with an infectious enthusiasm for web development. My fascination with creating digital experiences has led me to explore both the backend and the frontend.

PROFESSIONAL EXPERIENCE

Hackathon of the iOS Lab of the Facultad de Estudios Superiores Acatlán   **State of Mexico,Mexico**
Mobile application development with Swift   *February 2024–March 2024*

- I developed an application to avoid the large amount of shrinkage coming from restaurants and food businesses.
- I helped with the design of the application using Figma software.
- I was in charge of fixing the mistakes, as well as making the team's decisions.
